adapter

XTENDER – Global 5

- Vibration-free mounting system
- The two extension arms, which are removable from the turret base, and the extension arm with integrated ratchet mechanism make it possible to position the device closer to the driver and to make an individual adjustment in the viewing angle
- Position can be fixed with locking screws
- Raster plate with integrated articulation mechanism and locking device on the reverse side for the individual mounting of the device in the portrait or landscape format
- Suction cup mount on the inside of the windscreen, on any smooth base or on »CONECTOR« suction cup adapter
- »CONECTOR« suction cup adapter included

mini Phone Gripper 4

- Universal holder – suitable for almost all devices (with a width from 42 mm to 82 mm)
- Padded side arms keep the device protected and secure within the holder
- Simply insert the device and press together the lateral clamping jaws
- Release of the device at the push of a button
- An optimized clamping pressure ensures a perfect grip
- Moving strips can be removed and the holder can be turned (should controls on the side of the device be affected)
